Your Wish List

Welcome to the NewEgg wish list section. Here you can maintain wish lists you've created on our website in addition to viewing other customers' lists. You may also modify your wish lists, offer feedback on other customers' lists and inspect merchandise you have chosen to be automatically notified (auto notify) about when re-stocked in our inventory. There is no limit to the number of wish lists you may create. For example, it is possible to create one for yourself and another for a friend's system you are planning to build. You can also choose to share your wish lists, making them available online for other customers to scrutinize, review and offer their thoughts. Please note that your cookies must be enabled for the wish list features to be available and fully-functional.

Your Wish List is a smart way to plan a future purchase. Be advised that items in the history file will be kept for 30 days. Also note all items in your wish list may and will be sold out from time to time. **Adding items to Your Wish List or saving it does not guarantee availability.**
